one Pillé. She was that day, at the brink of the grave, as poor as the woman who died. I could not wait for a moment, for she herself went the night through; but a lady Williams' Pink Pills for me. The men commenced to take them. In four days the blood had changed - the change was quite apparent; they seemed to be coming back to life. The change brought it this day. Friends who came to see attended. I know," Mrs. ... "that if people knew the benefits Pink Pills have conferred upon me, they would say with me that they are good and everybody should take some of them. I have an excellent reason for this. I had been so pale, she the colour she had when a girl. The circumstance in my daughter's life: Five years ago an attack of ... all feeling in the right side.

Pills have also restored the health of many who have been discovered in, in short, a "miracle" "Dr. Williams' Pink Pills for Pale People" is the only medicine which has ever failed. For not in the Hospitals and undergone kinds, but I have been informed to Harebush and Fennell, remaining in the strength. Thank Pills for Pale People are not, because they cure by directly and purifying it from disease, men the tissues of the body and serves. They cure in this way as rheumatism, neuralgia, paromotor ataxia, and Vitis, and the following therefrom, diseases depending in the blood, such as scrofula, and, &c. They restore pale and to the glow of health, and rid the troubles peculiar to the in the case of men they effect a

RURAL DISTRICT COUNCIL.
meeting was held at the Work-
shop. The Rev. J. Hall, Elder,
and

Chief Officer of the Southern Division of the constabulary, at the existence of encasements at one of the cases had had a tooth pulled subsequently to get a cold in the encasement. In a supplemental report the Chief Constable stated that the illness had been reported by the three Medical Officers of the Southern Division, reported 15 cases at Tidewater, and three at Litterton. Of proper means of isolation, to want of cure on the part of those of the sick, it was impossible to outbreak in anything but a small number. The illness extending the illness was the most affected, but it was able to close them and allow the remain open. He suggested that discussed by the District Council, eventually resolved to close all the towns, in both the affected and the unaffected. A number of the Parish Councils of the more or less interest in localities. Amongst other things

Youngeville was discussed at conference. The Parish Council complained of the existence of any general scheme of aid to parish, and agreed that steps to be taken should be taken at once. It was asked to prepare a scheme of aid to submit the same to a future F. C. Arkwright would respecting sewage system, for which it advanced the required funds. The committee was appointed to conform. The Clerk said he would Local Government Board to see if a loan to be made after the completed.

and about 1000. Mr. G. Leighty notified that he had a copy of rules and regulations of the local Government Board affecting the rural parishes. He also announced that the annual poor law conference of guardians would take place on Feb. 24 at the Guildhall, London, and Mr. Leighty thought it should, at the next meeting of the Bakerswell Board send a delegate with their Clerk. The Visiting Committee reported the existence of a single case of typhoid in the Workhouse, which however, was cleared up. The clerk recommended that the uniforms or ordinary men's clothing (not uniform), and that ordinary trousers for the boys attending the school. This was in accordance with the passed by the last Board and was favourable to their going out of office.
